

**SECRET**NPIC/TDS/D-814-67  
24 April 1967

MEMORANDUM FOR: Executive Director, NPIC

ATTENTION : Chief, Support Staff, NPIC

SUBJECT : Request for Codeword Security Clearances

1. It is requested that TS, TKH and SI clearances be granted to [redacted] both of whom are employees of [redacted].

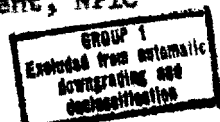

[redacted] Currently both Mr. [redacted] have Agency ~~SECRET~~ clearances. They both hold current DOD TS clearances granted by DISCO, Columbus, Ohio. Mr. [redacted] is Vice-President for Engineering, and [redacted] is Manager of the [redacted].

2. Four months ago the [redacted] was awarded a 15-month contract [redacted] from Rome Air Development Center. The contract is titled "[redacted] Training Techniques". The end product of this contract (due in April 1968) will be a two-week training program package which the Air Force will use to train their interpreters in [redacted] interpretation.

3. NPIC is as involved in and concerned with the problem of training in [redacted] interpretation as is Rome Air Development Center and if the [redacted] researchers working on this problem for RADC were able to visit and talk freely with NPIC's technical development and operational people it is felt their efforts would be more relevant to the intelligence community as a whole. We, at NPIC, also have to train our interpreters and we will profit from the development of a good [redacted] training program even though the work is done under a USAF contract. It is therefore recommended that [redacted] be granted these clearances so that their work can be of benefit to NPIC.

4. Attached are [redacted] forms 1841's and DD form 394's.

[redacted]  
Colonel, USAF  
Assistant for Technical Development, NPIC
